EDUCATION

Dawood University of Engineering and Technology

Bachelor of Science in Computer Science

Karachi, Pakistan

Nov 2021 – Dec 2025

- Applied academic concepts in full-stack web development, database design, and software architecture through project-based learning to build and deploy functional applications.

EXPERIENCE

360XpertSolutions

Frontend Developer

Karachi, Pakistan

Feb 2025 –

- Developed responsive web applications using React.js and Tailwind CSS, improving user experience and interfaces
- Collaborated with cross-functional teams to implement modern UI/UX designs and optimize frontend architecture
- Integrated RESTful APIs and managed application state using React hooks and context
- Implemented responsive design principles ensuring seamless functionality across mobile, tablet, and desktop devices

Oasis Infobyte

Frontend Web Developer Intern

Remote

Jan 2023 – Mar 2023

- Built interactive web interfaces using JavaScript, HTML5, and CSS3 for client projects
- Optimized website performance through code refactoring and implementing best practices
- Worked in an Agile development environment, participating in daily standups and sprint planning sessions

PROJECTS

Carpool Management System (Next.js) – Developed a full-stack ridesharing platform with real-time ride matching, driver-passenger coordination, and secure user authentication via NextAuth.js. Implemented a responsive UI with Tailwind CSS, utilized React Query for efficient server-state management, and deployed with a CI/CD pipeline on Vercel.

Web E-Commerce Application – Developed a responsive full-stack web application with Stripe payment gateway integration, JWT-based user authentication, and live inventory tracking. Built using React, Node.js, and Firebase for real-time database sync, cloud functions, and push notifications.

Portfolio Website (React + Tailwind) – Designed and developed a modern portfolio website showcasing projects with smooth animations, dark mode toggle, and contact form integration using EmailJS.

TECHNICAL SKILLS

Languages: JavaScript, Python, C++, HTML5, CSS3

Frameworks & Libraries: React.js, Node.js, Express.js, Tailwind CSS, Bootstrap

Developer Tools: Git, GitHub, VS Code, Firebase, Postman, Figma, Docker

Technologies: RESTful APIs, MongoDB, Responsive Design, CI/CD

CERTIFICATIONS & ACHIEVEMENTS

PITP Certified Web Developer – Pakistan Institute of Technology & Professionalism

Mobile App Development Certification – Completed comprehensive Flutter development course

Freelancing Certification – Professional freelancing and client management training

NAVAL Visit Recognition – Selected for institutional visit recognizing academic excellence

ADDITIONAL INFORMATION

Leadership: Active contributor to university coding clubs and hackathons, mentoring junior students in web development

Interests: Open-source contribution, UI/UX design principles, generative AI tooling, and modern web architecture
